

**BIG QUESTION**

## Are we just moist robots?

Francis Crick, who helped discover the shape of DNA, said you are “no more than” nerve cells and molecules. If there's no God, he's right.

But in 1927 J. B. S. Haldane saw the problem. If your thoughts are only atoms pushing atoms, like falling dominoes, you have no reason to trust any of them. Believing it is “sawing away the branch on which I am sitting.”

The Bible says God made us “in his own image.” Your mind can know what's true because it was made by a Mind.

### Who said it?

Draw a line from each thinker to what he said.

1 Francis Crick

A “sawing away the branch”

2 Richard Dawkins

B “a moist robot”

3 J. B. S. Haldane

C “no more than ... nerve cells”

4 Frank Turek

D “we dance to its music”

**Memory verse**

**“They show that the requirements of the law are written on their hearts, their consciences also bearing witness.”**

Romans 2:15

Fill it in: “They show that the requirements of the \_\_\_\_\_ are written on their \_\_\_\_\_, their consciences also bearing witness.” Romans 2:15

I can say it! ☆ ☆ ☆ Color a star each time you say it.

### Talk about it

1. Why can't a falling domino be right or wrong?
2. What is a person you love more than?
3. Why does it matter that God made your mind?
